NEW SAN PEDRO RAIN

IS SWITCHED NEAR LUND

(Special to The Herald-Republican.)
Modena, Dec. 10.—Running at a high rate of speed, an hour behind time, train No. 4 on the San Pedro, Los Angeles and Salt Lake railroad, due in Salt Lake at 4 o'clock this afternoon, was derailed at Ford's siding, west of Lund, at 3 o'clock this morning. It is said, however, that no one was seriously injured.

Soft roadbed and spreading rails caused the wreck. No. 4 is a new train recently added to the schedule, and it carried several coaches from Los Angeles.

MURRAY NOTES.

The new Fourteenth ward house was opened to the public last night. The opening of the church was attended by a large number of people. The evening a twenty-piece orchestra rendered an enjoyable program. The Ladies' G. A. R. band was also in attendance.

The farmers' institute down at Draper has a failure. After all arrangements had been made, it was found when time for opening the meeting rolled around that about six were holding down chairs in the ward house. As this was not enough to assure the professors that the people in that section of the county were desirous of a good lecture, the affair was called off. The next place scheduled by the A. C. U. is at Riverton today.

ICE COMPANY GUILTY AND FINED SMALL SUM

Monopoly One of the Pet Enterprises of Banker Charles W. Morse.
New York, Dec. 10.—The American ice company was found guilty today in the supreme court of restricting competition in and attempting to create a monopoly of the sale of ice. The jury was out one hour and forty minutes, and when the foreman announced the verdict the court immediately imposed the maximum sentence of \$5,000 which exists in the state's anti-monopoly law of this state.

The conviction is the first under the new law and all previous attempts to bring the case before the court have failed. The significance of the verdict lies not so much in the relatively trivial amount of the fine imposed as in the intimations made by John B. Stanchfield of counsel for the defense that a finding of guilty on the company's behalf, he said, supplies 8,000,000 customers, would mark the first step in its ultimate dissolution.

The American ice company, though tried under the laws of New York, was incorporated under the laws of New Jersey, and its charter was taken over by the American Ice Securities company of the same state after a drastic reorganization.

The company has plants in New York, Washington, Baltimore and Philadelphia, and has a large number of smaller companies along the Hudson River and in the Maine ice fields. Before Wesley H. Oler was elected president of the company, Charles W. Morse, convicted banker, was active in its affairs.
